9 *Speaks*

## For An Act To Be Entitled

12 AN ACT CONCERNING TERMINALLY ILL PATIENT ACCESS TO  
13 INVESTIGATIONAL DRUGS, BIOLOGICAL PRODUCTS, OR  
14 DEVICES; TO CREATE THE RIGHT TO TRY ACT; AND FOR  
15 OTHER PURPOSES.

### Subtitle

19 CONCERNING TERMINALLY ILL PATIENT ACCESS  
20 TO INVESTIGATIONAL DRUGS, BIOLOGICAL  
21 PRODUCTS, OR DEVICES; AND TO CREATE THE  
22 RIGHT TO TRY ACT.

25 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

27 SECTION 1. Arkansas Code Title 20, Chapter 15, is amended to add an  
28 additional subchapter to read as follows:

#### Subchapter 20 – Right to Try Act

32 20-15-2001. Title.

33 This subchapter shall be known and may be cited as the “Right to Try  
34 Act”.

36 20-15-2002. Findings.

1 It is found and determined by the General Assembly of the State of  
2 Arkansas that:

3 (1) The process of approval for investigational drugs,  
4 biological products, and devices in the United States often takes many years;

5 (2) Patients who have a terminal disease do not have the luxury  
6 of waiting until an investigational drug, biological product, or device  
7 receives final approval;

8 (3) The standards of the United States Food and Drug  
9 Administration for the use of investigational drugs, biological products, and  
10 devices may deny the benefits of potentially life-saving treatments to  
11 terminally ill patients;

12 (4) The State of Arkansas recognizes that patients who have a  
13 terminal disease have a fundamental right to attempt to pursue the  
14 preservation of their own lives by accessing available investigational drugs,  
15 biological products, and devices; and

16 (5) The use of available investigational drugs, biological  
17 products, or devices is a decision that should be made by the patient with a  
18 terminal disease in consultation with his or her physician.

19  
20 20-15-2003. Definitions.

21 As used in this subchapter:

22 (1) "Eligible patient" means a person who meets the requirements of  
23 eligibility in § 20-15-2004;

24 (2) "Investigational drug, biological product, or device" means a  
25 drug, biological product, or device that:

26 (A) Has successfully completed phase I of clinical trials but  
27 has not been approved for general use by the United States Food and Drug  
28 Administration; and

29 (B) Remains currently under investigation in a United States  
30 Food and Drug Administration clinical trial;

31 (3) "Physician" means an individual licensed to practice medicine in  
32 the State of Arkansas under the Arkansas Medical Practices Act, § 17-95-201  
33 et seq., § 17-95-301 et seq., and § 17-95-401 et seq.; and

34 (4) "Terminal illness means an incurable and irreversible condition  
35 that without the administration of life-sustaining treatment will, in the  
36 opinion of the patient's physician, result in death within a relatively short

1 time.

2  
3 20-15-2004. Eligibility.

4 In order for a patient to access an investigational drug, biological  
5 product, or device under this subchapter, a physician must document in the  
6 patient's medical record and chart that the patient:

7 (1) Has a terminal illness;

8 (2) Has a determination from a qualified physician that the  
9 patient has no comparable or satisfactory treatment options approved by the  
10 United States Food and Drug Administration available to treat the terminal  
11 illness and that the probable risk to the patient from the investigational  
12 drug, biological product, or device is not greater than the probable risk  
13 from the terminal illness;

14 (3) Has been unable to participate in a clinical trial for the  
15 terminal illness within one hundred miles (100 mi) of the patient's home  
16 address, or has not been accepted to the clinical trial within one (1) week  
17 of the completion of the clinical trial application process;

18 (4) Has been given a prescription by a physician for an  
19 investigational drug, biological product, or device;

20 (5)(A) Has given informed consent in writing for the use of the  
21 investigational drug, biological product, or device.

22 (B) If the patient is a minor or lacks the mental capacity  
23 to provide informed consent, a parent or legal guardian may provide informed  
24 consent on the patient's behalf; and

25 (6) Has received written documentation from a physician that the  
26 patient meets the requirements of this subchapter.

27  
28 20-15-2005. Availability.

29 A manufacturer of an investigational drug, biological product, or  
30 device may, but is not required to, make its investigational drug, biological  
31 product, or device available to eligible patients under this subchapter.

32  
33 20-15-2006. Costs.

34 (a) A manufacturer of an investigational drug, biological product, or  
35 device may:

36 (1) Provide an investigational drug, biological product, or

1 device to an eligible patient without receiving compensation; or

2 (2)(A) Require an eligible patient to pay the costs associated  
3 with the manufacture of the investigational drug, biological product, or  
4 device.

5 (B) As used in this section, "costs associated with the  
6 manufacture of the investigational drug, biological product, or device" means  
7 the actual out-of-pocket costs incurred in providing the investigational  
8 drug, biological product, or device to the patient in the specific case.

9 (b) If a patient dies while being treated by an investigational drug,  
10 biological product, or device, the patient's heirs are not liable for any  
11 outstanding debt to the manufacturer related to the investigational drug,  
12 biological product, or device.

13  
14 20-15-2007. Insurance coverage.

15 An insurance company:

16 (1) May, but is not required to, provide coverage for an  
17 investigational drug, biological product, or device; and

18 (2) Shall not deny coverage for an item or service that is:

19 (A) Otherwise covered by an insurance contract between the  
20 eligible person and an insurance company; and

21 (B) Used separately or in conjunction with an  
22 investigational drug, biological product, or device.

23  
24 20-15-2008. Prohibited sanctions.

25 The recommendation, prescription, treatment, or participation in the  
26 treatment of a terminal illness with an investigational drug, biological  
27 product, or device shall not permit:

28 (1) A licensing board to revoke a license, fail to renew a  
29 license, or take any other action against a physician's license;

30 (2) A state agency or licensing board to revoke a license, fail  
31 to renew a license, or take any other action against:

32 (A) A medical professional licensed under state law; or

33 (B) A hospital licensed under § 20-9-213; or

34 (3) An action against a hospital's Medicare certification.

35  
36 20-15-2009. Remedy.

1 The counseling, advice, or recommendation by a medical professional who  
2 is licensed under the state law is not a violation of this subchapter.

3  
4 20-15-2010. Immunity.

5 (a) Except in the case of gross negligence or willful misconduct, a  
6 person or entity that manufacturers, imports, distributes, prescribes,  
7 dispenses, administers, or is otherwise involved in the care of an eligible  
8 patient using an investigational drug, biological product, or device is  
9 immune from civil liability for any loss, damage, or injury arising out of,  
10 relating to, or resulting from the investigational drug, biological product,  
11 or device so long as the person or entity is substantially complying in good  
12 faith with this subchapter.

13 (b) This subchapter does not require a medical professional who is  
14 licensed under the laws of this state to counsel, advise, prescribe,  
15 dispense, administer, or otherwise be involved in the care of an eligible  
16 patient using an investigation drug, biological product, or device.

17 (c) This subchapter does not require a hospital licensed under § 20-9-  
18 213 to provide any service related to an investigational drug, biological  
19 product, or device.

20  
21 20-15-2011. Medicaid coverage.

22 This subchapter does not require the Department of Human Services or  
23 the Arkansas Medicaid Program to provide additional coverage for an  
24 investigational drug, biological product, or device.
