used by the state historical society (history Colorado) for the historic preservation and restoration of historical sites and municipalities throughout the state as follows:

- ! 50.1% of the revenues (majority share) are used to provide historic preservation grants; and
- ! 49.9% of the revenues (minority share) are used to further the history Colorado's mission as a state educational institution to collect, preserve, and interpret history, including capital construction and controlled maintenance costs relating to its properties.

The bill creates 2 distinct subaccounts in the state historical fund to separately track the deposit and expenditure of the majority share and the minority share of revenues. The majority share is deposited in a new preservation grant program account. Moneys in this account that are used to provide grants are continuously appropriated to history Colorado, and moneys used to administer the grant program are subject to annual appropriation. The minority share is deposited in a new museum and preservation operations account. Moneys in this account are subject to annual appropriation.

Currently, some nongaming revenues received by history Colorado, such as donations, store sale revenues, and admission fees, are deposited in the state historical fund. The bill requires these revenues to be deposited in a separate cash fund called the enterprise services cash fund, which is subject to annual appropriation. The fund is exempted from the existing statutory limit on uncommitted reserves.
