1 WHEREAS, the department of health found that between 2019
2 and 2023, guns were the second leading cause of death for
3 children between the ages of twelve and eighteen; and

4 WHEREAS, according to everytown for gun safety, firearms
5 are the leading cause of death for children and teens in the
6 United States; and

7 WHEREAS, every year, nearly twenty-two thousand children
8 and teens are shot and killed or wounded, and approximately
9 three million are exposed to gun violence; and

10 WHEREAS, schools have been struggling to respond to the
11 increase in school closures due to threats, violence and school

13 WHEREAS, an increasing number of New Mexico schools have
14 received hoax shooting calls, invoking shelter-in-place and

1 WHEREAS, a 2025 everytown for gun safety study found that
2 in New Mexico, a single nonfatal gun injury results in more
3 than six hundred thousand dollars (\$600,000) in expenses
4 related to law enforcement response, the criminal justice
5 system, medical care, lost wages and diminished quality of life
6 for victims and their families, and a single gun-related
7 homicide costs more than twelve million dollars (\$12,000,000);
8 and

9 WHEREAS, combined with the state's high rate of gun
10 violence, New Mexico bears the fifth-highest per-capita cost of
11 gun violence in the nation. At a time when the state faces
12 uncertainty due to reductions in federal funding, it cannot
13 afford to overlook a problem that costs taxpayers more than one
14 hundred forty million dollars (\$140,000,000) annually; and

15 WHEREAS, addressing the root causes of gun violence
16 requires a comprehensive public health approach that is
17 evidence-based and needs to involve collaboration among various
18 stakeholders; and

19 WHEREAS, a statewide task force focused on gun violence
20 prevention could play a crucial role in identifying strategies
21 and policies that could help to reduce the incidence of gun
22 violence and enhance public safety; and

23 WHEREAS, a statewide crime prevention task force could
24 bring together diverse perspectives from law enforcement,
25 health care professionals, community leaders, gun owners and
