570.405. (1) The State Department of Agriculture may establish, in accordance with the provisions governing the procedure for the declaring of quarantines contained in ORS 561.510 to 561.590, control areas within this state, if after careful investigation *[it]* **the department** determines that *[such]* **the** areas are necessary for the general protection of the horticultural, agricultural or *[forest]* **forestry** industries *[of the]* **in this** state from *[diseases, insects, animals or noxious weeds]* **insects or other plant pests**, or for the eradication or exclusion from *[such]* **the** areas of certain plants or their produce, trees~~*[, diseases, animals, insects or noxious weeds]*~~ **or insects or other plant pests** that may be a menace to *[such]* **the** areas and generally to horticultural, agricultural or forestry industries. *[Whenever eastern filbert blight is found to exist, the department may declare it a hazard and may establish a control area without having to prove how the disease is transmitted.]*

(2) The power and authority to establish *[such]* control areas and for the eradication or exclusion of certain plants or their produce, trees~~*[, diseases, insects, animals or noxious weeds]*~~ **or insects or other plant pests** existing *[therein]* **in the areas** or to be excluded *[therefrom]* **from the areas** shall be exercised reasonably and justly considering the exigencies of the particular situation, the danger to the interests sought to be protected and the immediate and continuing effect upon the property and the owners of the property in the areas established. *[Such powers shall in no case be exercised]* **The department may not exercise the power to establish control areas** unreasonably, unjustly or arbitrarily.

(3) The department, in *[such]* **making a** determination, shall define the boundaries of the **control** areas and specify the character and kinds of plants or their produce, trees~~*[, diseases, insects, animals or noxious weeds]*~~ **or insects or other plant pests** to be eradicated or excluded and the manner and method of *[such]* eradication or exclusion. The provisions of ORS 561.510 to 561.590 apply to this section.

SECTION 19. ORS 570.415 is amended to read:

570.415. The Director of Agriculture may, at any time the director believes *[such action]* necessary, revoke any order concerning control areas made by the director by giving notice *[in a newspaper published within or near the control area or lands affected and filing proof thereof with the county clerk of the county]* **by one or more methods that reasonably ensure that affected persons and other members of the public have knowledge of the revocation.**

SECTION 20. ORS 596.402 is amended to read:

596.402. (1) The State Department of Agriculture may also summarily quarantine any legally described area of this state and prohibit or otherwise restrict any movement of livestock, vehicles, persons or things into or out of *[such]* **the** area as the department deems necessary for the eradication or control of a disease in the area, or for the prevention of the spread of *[such]* **a** disease into other areas of this state.

[(2) When the department imposes a quarantine under this section, it shall forthwith but not later than seven days thereafter give notice of the quarantine in a newspaper of general circulation in the quarantined area. A copy of the order of quarantine and any regulations relating thereto shall be filed in the office of the county clerk in each county in which quarantined property is located. The published notice of quarantine shall contain a description of the boundaries of the quarantined area and a notice that copies of the regulations applicable to the quarantine are filed with the county clerk or may be obtained from the department.]

(2) No later than seven days after imposing a quarantine under this section, the department shall provide notice of the quarantine by one or more methods that reasonably ensure

1 **that affected persons and other members of the public have knowledge of the quarantine.**

2 (3) The provisions of ORS 561.510 to 561.560 [*shall*] **do** not apply to quarantines imposed under
3 this section.

4 **SECTION 21.** ORS 621.072 is amended to read:

5 621.072. (1) The State Department of Agriculture shall issue a license to use a grade designation
6 to any person who:

7 (a) Makes written application for a license on forms provided by the department;

8 (b) Pays the designated license fee;

9 (c) Is engaged in the business of producing or distributing fluid milk; and

10 (d) Meets the requirements of the particular grade designation for which application is made.

11 (2) If a person carries on the activities of a producer and a producer-distributor, the person must
12 obtain a separate license for each of those activities. [*If a producer-distributor manufactures products*
13 *from both grade A fluid milk and grade B fluid milk at the same premises, the producer-distributor*
14 *must obtain separate licenses for grade A product manufacturing activity and grade B product manu-*
15 *facturing activity.*]

16 (3) Licenses issued under this section shall be personal and not transferable.

17 (4) Each milk hauler, milk receiver or other person who grades fluid milk as fit or unfit for
18 processing as fluid milk due to quality, odor, flavor or wholesomeness must first obtain a license
19 from the department authorizing that person to sample and grade fluid milk. Each applicant for a
20 milk sampler's and grader's license shall, by written examination, demonstrate an adequate knowl-
21 edge of milk sanitation as it relates to the sampling, grading and handling of fluid milk and cream
22 for analysis. The department shall give examinations for licenses at such times and places as ap-
23 pears to be necessary and practicable.

24 (5) Before and after issuing a license to a person as a producer, producer-distributor, distributor
25 or nonprocessing distributor of fluid milk, the department shall, as it deems necessary, inspect the
26 physical facilities of the applicant's dairy, milk processing plant or distribution center and investi-
27 gate other factors the department determines may relate to the production, processing or distrib-
28 ution of fluid milk. [*The physical facilities must conform to the production, processing or distribution*
29 *requirements for the fluid milk grade designation sought or held.*]

30 (6) Each license issued under this section expires on June 30 next following the date of its is-
31 suance unless sooner revoked and may be renewed upon application of the licensee. Each applica-
32 tion for a license or annual renewal of a license shall be accompanied by a license fee.

33 (7) The department may adopt rules establishing license fee schedules for:

34 (a) Milk samplers and graders;

35 (b) Producer-distributors, distributors and nonprocessing distributors; and

36 (c) Producers.

37 (8) The department may determine the license fee for a producer-distributor, distributor or non-
38 processing distributor based upon the annual gross dollar volume of sales and services by the ap-
39 plicant. In establishing the amount of the license fee for an applicant under this subsection, the
40 department shall use the annual gross dollar volume of sales and services by that applicant within
41 Oregon during the prior calendar year or, if the applicant maintains sales and service records on
42 a fiscal basis, the prior fiscal year. If the applicant applying for an original license or for a renewal
43 license cannot provide the annual gross dollar volume of sales and services for a full calendar year,
44 the department shall base the fee on estimated annual gross sales and services by the applicant. If
45 an applicant whose previous year's fee was determined using an estimated gross sales and services

1 figure applies for renewal of that license, the fee for the previous license year shall be adjusted to
2 reflect the actual gross dollar volume of sales and services by the applicant.

3 (9) The department may determine the license fee for a producer based upon the annual gross
4 sales by the applicant. In establishing the amount of the license fee for an applicant under this
5 subsection, the department shall use the annual gross sales by that applicant within Oregon during
6 the prior calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal
7 year. If the applicant applying for an original license or for a renewal license cannot provide the
8 annual gross sales for a full calendar year, the department shall base the fee on estimated annual
9 gross sales by the applicant. If an applicant whose previous year's fee was determined using an es-
10 timated gross sales figure applies for renewal of that license, the fee for the previous license year
11 shall be adjusted to reflect the actual gross sales by the applicant.

12 (10) Except as provided in this subsection, the department may not adopt a rule under this sec-
13 tion to establish a license fee that is more than three percent higher than the fee charged during
14 the preceding year for a milk sampler and grader, for a producer-distributor, distributor or nonpro-
15 cessing distributor having the same volume of gross sales and services or for a producer having the
16 same volume of gross sales. When adopting a rule establishing a license fee, notwithstanding the
17 three percent limit, the department may round the fee amount to the next higher whole dollar
18 amount. Fee schedules adopted under this section may not change the amount of the same license
19 fee more frequently than once each year.

20 (11) A distributor or producer-distributor must obtain a license and pay license fees for each
21 physical facility used to produce, process or distribute fluid milk. A person is not required to obtain
22 a distributor or producer-distributor license to act as a milk hauler or to operate receiving or
23 transfer stations in conjunction with a milk processing plant.

24 (12) The department may refuse to issue or renew, or may suspend or revoke, a license for any
25 violation of this section or ORS 621.062, 621.070, 621.076, 621.084, 621.088, 621.117, 621.122 or 621.259
26 or processes or standards established under ORS 621.060 or 621.083.

27 **SECTION 22.** ORS 621.072, as amended by section 39, chapter 64, Oregon Laws 2012, is
28 amended to read:

29 621.072. (1) The State Department of Agriculture shall issue a license to use a grade designation
30 to any person who:

- 31 (a) Makes written application for a license on forms provided by the department;
- 32 (b) Pays the designated license fee;
- 33 (c) Is engaged in the business of producing or distributing fluid milk; and
- 34 (d) Meets the requirements of the particular grade designation for which application is made.

35 (2) If a person carries on the activities of a producer and a producer-distributor, the person must
36 obtain a separate license for each of those activities. *[If a producer-distributor manufactures products*
37 *from both grade A fluid milk and grade B fluid milk at the same premises, the producer-distributor*
38 *must obtain separate licenses for grade A product manufacturing activity and grade B product manu-*
39 *facturing activity.]*

40 (3) Licenses issued under this section shall be personal and not transferable.

41 (4) Each milk hauler, milk receiver or other person who grades fluid milk as fit or unfit for
42 processing as fluid milk due to quality, odor, flavor or wholesomeness must first obtain a license
43 from the department authorizing that person to sample and grade fluid milk. Each applicant for a
44 milk sampler's and grader's license shall, by written examination, demonstrate an adequate knowl-
45 edge of milk sanitation as it relates to the sampling, grading and handling of fluid milk and cream

1 for analysis. The department shall give examinations for licenses at such times and places as ap-
2 pears to be necessary and practicable.

3 (5) Before and after issuing a license to a person as a producer, producer-distributor, distributor
4 or nonprocessing distributor of fluid milk, the department shall, as it deems necessary, inspect the
5 physical facilities of the applicant's dairy, milk processing plant or distribution center and investi-
6 gate other factors the department determines may relate to the production, processing or distrib-
7 ution of fluid milk. [*The physical facilities must conform to the production, processing or distribution*
8 *requirements for the fluid milk grade designation sought or held.*]

9 (6) Each license issued under this section expires on June 30 next following the date of its is-
10 suance unless sooner revoked and may be renewed upon application of the licensee. Each applica-
11 tion for a license or annual renewal of a license shall be accompanied by a license fee.

12 (7) The department may adopt rules establishing license fee schedules for:

13 (a) Milk samplers and graders;

14 (b) Producer-distributors, distributors and nonprocessing distributors; and

15 (c) Producers.

16 (8) The department may determine the license fee for a producer-distributor, distributor or non-
17 processing distributor based upon the annual gross dollar volume of sales and services by the ap-
18 plicant. In establishing the amount of the license fee for an applicant under this subsection, the
19 department shall use the annual gross dollar volume of sales and services by that applicant within
20 Oregon during the prior calendar year or, if the applicant maintains sales and service records on
21 a fiscal basis, the prior fiscal year. If the applicant applying for an original license or for a renewal
22 license cannot provide the annual gross dollar volume of sales and services for a full calendar year,
23 the department shall base the fee on estimated annual gross sales and services by the applicant. If
24 an applicant whose previous year's fee was determined using an estimated gross sales and services
25 figure applies for renewal of that license, the fee for the previous license year shall be adjusted to
26 reflect the actual gross dollar volume of sales and services by the applicant.

27 (9) The department may determine the license fee for a producer based upon the annual gross
28 sales by the applicant. In establishing the amount of the license fee for an applicant under this
29 subsection, the department shall use the annual gross sales by that applicant within Oregon during
30 the prior calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal
31 year. If the applicant applying for an original license or for a renewal license cannot provide the
32 annual gross sales for a full calendar year, the department shall base the fee on estimated annual
33 gross sales by the applicant. If an applicant whose previous year's fee was determined using an es-
34 timated gross sales figure applies for renewal of that license, the fee for the previous license year
35 shall be adjusted to reflect the actual gross sales by the applicant.

36 (10) The department may not adopt or enforce a rule under this section establishing a license
37 fee for a milk sampler and grader that is higher than the license fee charged for the license year
38 that began July 1, 2018, for a milk sampler and grader. The department may not adopt or enforce
39 a rule under this section establishing a license fee for a producer-distributor, distributor or non-
40 processing distributor that is higher than the license fee charged for the license year that began
41 July 1, 2018, for a producer-distributor, distributor or nonprocessing distributor having the same
42 volume of gross sales and services. The department may not adopt or enforce a rule under this
43 section establishing a license fee for a producer that is higher than the license fee charged for the
44 license year that began July 1, 2018, for a producer having the same volume of gross sales. Fee
45 schedules adopted under this section may not change the amount of the same license fee more fre-

1 quently than once each year.

2 (11) A distributor or producer-distributor must obtain a license and pay license fees for each
 3 physical facility used to produce, process or distribute fluid milk. A person is not required to obtain
 4 a distributor or producer-distributor license to act as a milk hauler or to operate receiving or
 5 transfer stations in conjunction with a milk processing plant.

6 (12) The department may refuse to issue or renew, or may suspend or revoke, a license for any
 7 violation of this section or ORS 621.062, 621.070, 621.076, 621.084, 621.088, 621.117, 621.122 or 621.259
 8 or processes or standards established under ORS 621.060 or 621.083.

9 **SECTION 23.** ORS 621.078 is amended to read:

10 621.078. (1) The State Department of Agriculture may issue a distributor or producer-distributor
 11 license under ORS 621.072 to one or more additional users of a milk processing plant that is pri-
 12 marily operated by another distributor or producer-distributor. A license issued to an additional
 13 user for activities at the milk processing plant may differ in activity type [*and fluid milk grade*] from
 14 the license issued to the primary operator of the plant. The physical facilities of the milk processing
 15 plant must conform to the requirements for all activity types [*and milk grades*] for which the pri-
 16 mary operator and the additional users of the plant are licensed. Regardless of the number of per-
 17 sons licensed to use a milk processing plant, the department may not recognize more than one
 18 distributor or producer-distributor as the primary operator of the plant.

19 (2) The department may assess a distributor or producer-distributor license fee to an additional
 20 user of a milk processing plant, calculated as provided in rules adopted under ORS 621.072. In cal-
 21 culating license fees as provided under ORS 621.072, the annual gross dollar volume of sales and
 22 services for an additional user of a milk processing plant is independent of the annual gross dollar
 23 volume of sales and services for any other user or the primary operator of the plant.

24 (3) Notwithstanding ORS 621.072, the department may adopt rules to establish the license expi-
 25 ration, renewal and application dates for distributors or producer-distributors that are additional
 26 users of a milk processing plant.

27 (4) The department may adopt rules to determine the responsibilities of a milk processing plant's
 28 primary operator and additional users of the milk processing plant under standards prescribed by
 29 ORS 621.176 and 621.181 and under ORS 621.183.

30 (5) A recognized primary operator of a milk processing plant shall notify the department upon
 31 the expiration or termination of the rental or lease of the plant by an additional user of the plant.

32 **SECTION 24.** ORS 633.571 is amended to read:

33 633.571. (1) The Director **of Agriculture**, with the concurrence of the dean, may make the fol-
 34 lowing changes in the list of prohibited noxious weed seeds or in the list of restricted noxious weed
 35 seeds:

- 36 (a) The addition to either list of the name of the seed of any weed.
- 37 (b) The removal from either list of the name of the seed of any weed.
- 38 (c) A change in the list of restricted noxious weed seeds of the number of such seeds per pound
 39 that may be present in agricultural, flower or vegetable seed.

40 (2) In determining whether the name of the seed of any weed should be added to or removed
 41 from either list, or whether a change should be made in the number of any restricted noxious weed
 42 seed that may be present in agricultural, flower or vegetable seed, the director and the dean shall
 43 consider the following factors:

- 44 (a) The prevalence of such weed in the state.
- 45 (b) The potential effect upon the seed industry and agriculture generally.

1 (c) Means of effective control or eradication.

2 (d) Toxicity to animals, including humans.

3 (e) Methods of separation from other seeds.

4 (f) Any other factor that may in the judgment of the director and the dean be a reasonable
5 ground for making such change.

6 (3) The director shall cause all changes made pursuant to this section to be given to the press
7 and *[printed in pamphlet form available for distribution]* **made available by one or more reasonable**
8 **methods for use by affected persons or other members of the public.**

 10 nonretail dealer or wholesale dealer may not sell or offer for sale diesel fuel unless the diesel fuel
 11 contains at least five percent biodiesel by volume or other renewable diesel with at least five per-
 12 cent renewable component by volume. Diesel fuel that contains more than five percent biodiesel by
 13 volume or other renewable diesel with more than five percent renewable component by volume must
 14 be labeled as the State Department of Agriculture provides by rule.

15 [(3)] (2) A retail dealer, nonretail dealer or wholesale dealer may sell or offer for sale diesel fuel
 16 that otherwise meets the requirements of [subsections (1) and (2)] **subsection (1)** of this section and
 17 rules adopted pursuant to ORS 646.957 but to which there have been added substances to prevent
 18 congealing or gelling of diesel fuel containing biodiesel or other renewable diesel, without violating
 19 the requirements of [subsections (1) and (2)] **subsection (1)** of this section and rules adopted pursu-
