IN THE HOUSE OF REPRESENTATIVES

Mr. HECK of Washington (for himself, Ms. DELBENE, Mr. LARSEN of Washington, Mr. KILMER, Mr. McDERMOTT, Mr. REICHERT, Mr. SMITH of Washington, Mr. DEFAZIO, and Mr. NEWHOUSE) introduced the following bill; which was referred to the Committee on Transportation and Infrastructure

A BILL

To amend the Federal Water Pollution Control Act to provide assistance for programs and activities to protect the water quality of Puget Sound, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Promoting United Gov-
5 ernment Efforts to Save Our Sound Act” or the “PUGET
6 SOS Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) Puget Sound and its tributary waters are
4 one of the most ecologically diverse ecosystems in
5 North America with natural resources that have eco-
6 logical, economic, and cultural importance to the
7 United States. The health and productivity of Puget
8 Sound is not only the cornerstone of the region's
9 quality of life and vibrant economy, but its commer-
10 cial aquaculture, agriculture, and port activities rip-
11 ple throughout the Nation.

12 (2) Threats to Puget Sound, such as water pol-
13 lution, sediment contamination, environmental deg-
14 radation, and habitat loss, jeopardize the economic
15 productivity and natural resources that support the
16 increasing population of the region.

17 (3) For nearly a decade, State, local, and tribal
18 governments, cooperative partnerships, and con-
19 cerned citizens have worked together in a deliberate
20 and coordinated way to manage resource allocation
21 toward habitat restoration, improving water quality
22 and shellfish farms, and developing a body of sci-
23 entific knowledge, all of which have advanced the
24 Puget Sound recovery efforts.

25 (4) Despite significant and nationally recog-
26 nized accomplishments, the rate of damage to Puget

1 Sound still exceeds the rate of recovery. To outpace
2 mounting pollutants and other cascading negative
3 impacts, the next step in fortifying the recovery sys-
4 tem is to align Federal recovery and protection ef-
5 forts seamlessly with State, local, and tribal invest-
6 ments.

7 (5) At this time, water and air pollution, sedi-
8 ment contamination, habitat loss and decline, and
9 water flow disruption continue to devastate the fish,
10 marine mammal, bird, and shellfish populations of
11 Puget Sound, threatening local economies and tribal
12 treaty rights and contributing to—

13 (A) significant declines in the populations
14 of wild Chinook Salmon, Coho Salmon, Summer
15 Chum Salmon, Steelhead, and Pacific Herring,
16 which are essential food sources for humans,
17 fish, seabirds, mammals, and other wildlife;

18 (B) risks to the sustainability of fish and
19 shellfish populations, and their food chains, re-
20 productive cycles, and habitats, which also
21 threaten Federal obligations to protect tribal
22 culture, traditions, and economies;

23 (C) 113 marine species being listed at risk
24 or vulnerable to extinction, according to State,
25 Federal, and provincial lists that identify the

1 species of Puget Sound and surrounding areas,
2 including the iconic population of southern resi-
3 dent Orca whales;

4 (D) sediment contaminated with toxic sub-
5 stances (such as polychlorinated biphenyls
6 (PCBs), heavy metals (mercury), and oil
7 (grease)), all of which are polluting Puget
8 Sound, threatening public health, and posing
9 significant dangers to humans, fish, and wild-
10 life;

11 (E) rivers and beaches that fail to meet
12 water quality standards and become unsafe for
13 business and recreational activities, such as
14 fishing and swimming;

15 (F) the closing of shellfish beds from con-
16 taminated pollution caused by sources such as
17 stormwater and agricultural runoff; and

18 (G) mortalities and morbidity in shellfish
19 due to the acidification of Puget Sound.

20 **SEC. 3. DECLARATION OF POLICY; PURPOSE.**

21 (a) DECLARATION OF POLICY.—It is the policy of the
22 United States that the Federal Government should sup-
23 port, partner, and collaborate with the regional efforts
24 that are addressing environmental and natural resource
25 issues involving Puget Sound because—

1 (1) Puget Sound is a national treasure, the re-
2 covery and protection of which will significantly con-
3 tribute to the environmental, cultural, and economic
4 well-being of the United States;

5 (2) a more deliberate coordination of Federal
6 investments with regional, local, and tribal recovery
7 and preservation efforts will be the most effective
8 and efficient use of public resources; and

9 (3) it is the role of the Federal Government to
10 align its efforts and resources to—

11 (A) fully implement and enforce the goals
12 of the Federal Water Pollution Control Act, the
13 Endangered Species Act of 1973, and all other
14 Federal laws that contribute to the recovery
15 and protection of Puget Sound;

16 (B) uphold Federal trust responsibilities to
17 restore and protect resources crucial to tribal
18 treaty rights;

19 (C) support regional, local, and tribal ef-
20 forts to address environmental challenges and

21 (D) encourage local citizen and community
22 stewardship.

23 (b) PURPOSE.—It is the purpose of this Act to ensure
24 that the recovery and protection programs, projects, and
25 initiatives that the Federal Government undertakes in, or

1 that otherwise impact, Puget Sound are actively coordi-
2 nated and aligned with the protection of tribal treaty
3 rights as well as State, regional, local, and tribal Puget
4 Sound recovery efforts, as reflected in the Action Agenda,
5 a regionally developed, federally approved plan, in order
6 to make the most efficient and effective use of Federal
7 and other public resources.

8 **SEC. 4. PUGET SOUND COORDINATED RECOVERY.**
