## A BILL

To amend title 18, United States Code, to provide for a 7-day waiting period before a semiautomatic firearm, a silencer, armor piercing ammunition, or a large capacity ammunition magazine may be transferred.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Gun Safety: Not Sorry  
5 Act of 2017”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds as follows:

1           (1) There is nearly one mass shooting per day  
2           in the United States—355 mass shootings in 2015.

3           (2) In December 2012, a gunman walked into  
4           Sandy Hook Elementary School in Newtown, Con-  
5           necticut, and killed 20 children, 6 adults, and him-  
6           self.

7           (3) Since December 2012, there have been at  
8           least 1,518 mass shootings, with at least 1,715 peo-  
9           ple killed and 6,089 wounded.

10          (4) On the night of October 1, 2017, a gunman  
11          opened fire on a large crowd of concertgoers at the  
12          Route 91 Harvest music festival on the Las Vegas  
13          Strip, leaving 58 people dead and 527 injured.

14          (5) Every day, on average, 92 Americans are  
15          victims of gun violence, resulting in more than  
16          33,000 deaths annually.

17          (6) States with higher gun ownership rates have  
18          higher gun murder rates—as much as 114 percent  
19          higher than States with lower gun ownership rates.

20          (7) A recent study by the Centers for Disease  
21          Control and Prevention looking at 30 years of homi-  
22          cide data found that for every 1 percent increase in  
23          a State’s gun ownership rate, there is a nearly 1  
24          percent increase in its firearm homicide rate.

1           (8) Gun death rates are generally lower in  
2 States with restrictions such as safe storage require-  
3 ments or assault weapons bans.

4           (9) Mass shootings stopped by armed civilians  
5 in the past 33 years: 0.

6           (10) Because more than 75 percent of the  
7 weapons used in mass shootings between 1982 and  
8 2012 were obtained legally, stronger legislation is  
9 needed to prevent guns from getting into the wrong  
10 hands.

12 **FERRING A SEMIAUTOMATIC FIREARM, A SI-**

4 title is amended by striking “or (t)” and inserting

6           (c) DEFINITIONS.—Section 921(a) of such title is
