34 **73-1-4. Reversion to the public by abandonment or forfeiture for nonuse within**
35 **seven years -- Nonuse application.**

39 (ii) an agency of the United States;

40 (iii) the state;

41 (iv) a state agency;

42 (v) a political subdivision of the state; or

43 (vi) an agency of a political subdivision of the state.

44 (b) "Public water supplier" means an entity that:

45 (i) supplies water, directly or indirectly, to the public for municipal, domestic, or
46 industrial use; and

47 (ii) is:

48 (A) a public entity;

49 (B) a water corporation, as defined in Section [54-2-1](#), that is regulated by the Public
50 Service Commission;

51 (C) a community water system:

52 (I) that:

53 (Aa) supplies water to at least 100 service connections used by year-round residents; or

54 (Bb) regularly serves at least 200 year-round residents; and

55 (II) whose voting members:

56 (Aa) own a share in the community water system;

57 (Bb) receive water from the community water system in proportion to the member's
58 share in the community water system; and

59 (Cc) pay the rate set by the community water system based on the water the member
60 receives; or

61 (D) a water users association:

62 (I) in which one or more public entities own at least 70% of the outstanding shares; and

63 (II) that is a local sponsor of a water project constructed by the United States Bureau of
64 Reclamation.

65 (c) "Shareholder" [~~is as~~] means the same as that term is defined in Section 73-3-3.5.

66 (d) "Water company" [~~is as~~] means the same as that term is defined in Section
67 73-3-3.5.

68 (e) "Water supply entity" means an entity that supplies water as a utility service or for
69 irrigation purposes and is also:

70 (i) a municipality, water conservancy district, metropolitan water district, irrigation
71 district, or other public agency;

72 (ii) a water company regulated by the Public Service Commission; or

73 (iii) any other owner of a community water system.

74 (2) (a) Except as provided in Subsection (2)(b) or (e), when an appropriator or the
75 appropriator's successor in interest abandons or ceases to use all or a portion of a water right for
76 a period of seven years, the water right or the unused portion of that water right is subject to
77 forfeiture in accordance with Subsection (2)(c).

78 (b) (i) An appropriator or the appropriator's successor in interest may file an
79 application for nonuse with the state engineer.

80 (ii) If a person described in Subsection (2)(b)(i) files and receives approval on a nonuse
81 application, nonuse of the water right subject to the application is not counted toward a
82 seven-year period described in Subsection (2)(a) during the period of time beginning on the day
83 on which the person files the application and ending on the day on which the application
84 expires without being renewed.

85 (iii) If a person described in Subsection (2)(b)(i) files and receives approval on
86 successive, overlapping nonuse applications, nonuse of the water right subject to the
87 applications is not counted toward a seven-year period described in Subsection (2)(a) during
88 the period of time beginning on the day on which the person files the first application and
89 ending on the day on which the last application expires without being renewed.

90 (iv) Approval of a nonuse application does not protect a water right that is already
91 subject to forfeiture under Subsection (2)(a) for full or partial nonuse of the water right.

92 (v) A nonuse application may be filed on all or a portion of the water right, including
93 water rights held by a water company.

94 (vi) After giving written notice to the water company, a shareholder may file a nonuse
95 application with the state engineer on the water represented by the stock.

96 (c) (i) Except as provided in Subsection (2)(c)(ii), a water right or a portion of the water
97 right may not be forfeited unless a judicial action to declare the right forfeited is commenced
98 within 15 years from the end of the latest period of nonuse of at least seven years.

99 (ii) (A) The state engineer, in a proposed determination of rights prepared in
100 accordance with Section 73-4-11, may not assert that a water right was forfeited unless a period
101 of nonuse of seven years ends or occurs during the 15 years immediately preceding the day on
102 which the state engineer files the proposed determination of rights with the court.

103 (B) After the day on which a proposed determination of rights is filed with the court a
104 person may not assert that a water right subject to that determination was forfeited during the
105 15-year period described in Subsection (2)(c)(ii)(A), unless the state engineer asserts forfeiture
106 in the proposed determination, or a person makes, in accordance with Section 73-4-11, an
107 objection to the proposed determination that asserts forfeiture.

108 (iii) A water right, found to be valid in a decree entered in an action for general
109 determination of rights under Chapter 4, Determination of Water Rights, is subject to a claim
110 of forfeiture based on a seven-year period of nonuse that begins after the day on which the state
111 engineer filed the related proposed determination of rights with the court, unless the decree
112 provides otherwise.

113 (iv) If in a judicial action a court declares a water right forfeited, on the date on which
114 the water right is forfeited:

115 (A) the right to use the water reverts to the public; and

116 (B) the water made available by the forfeiture:

117 (I) first, satisfies other water rights in the hydrologic system in order of priority date;

118 and

119 (II) second, may be appropriated as provided in this title.

120 (d) ~~[This]~~ Except as provided in Subsection (2)(e), this section applies whether the

121 unused or abandoned water or a portion of the water is:

122 (i) permitted to run to waste; or

123 (ii) used by others without right with the knowledge of the water right holder.

124 (e) This section does not apply to:

125 (i) the use of water according to a lease or other agreement with the appropriator or the
126 appropriator's successor in interest;

127 (ii) a water right if its place of use is contracted under an approved state agreement or
128 federal conservation fallowing program;

129 ~~[(iii) those periods of time when a surface water or groundwater source fails to yield
130 sufficient water to satisfy the water right;]~~

131 (iii) a water right during a period of time when a surface water source or groundwater
132 source fails to yield sufficient water to satisfy the water right;

133 (iv) a water right when water is unavailable because of the water right's priority date;

134 (v) a water right to store water in a surface reservoir or an aquifer, in accordance with
135 Title 73, Chapter 3b, Groundwater Recharge and Recovery Act, if:

136 (A) the water is stored for present or future use; or

137 (B) storage is limited by a safety, regulatory, or engineering restraint that the
138 appropriator or the appropriator's successor in interest cannot reasonably correct;

139 (vi) a water right if a water user has beneficially used substantially all of the water right
140 within a seven-year period, provided that this exemption does not apply to the adjudication of a
141 water right in a general determination of water rights under Chapter 4, Determination of Water
142 Rights;

143 (vii) except as provided by Subsection (2)(g), a water right:

144 (A) (I) owned by a public water supplier;

145 (II) represented by a public water supplier's ownership interest in a water company; or

146 (III) to which a public water supplier owns the right of use; and

147 (B) conserved or held for the reasonable future water requirement of the public, which
148 is determined according to Subsection (2)(f);

149 (viii) a supplemental water right during a period of time when another water right
150 available to the appropriator or the appropriator's successor in interest provides sufficient water
151 so as to not require use of the supplemental water right; or

152 (ix) a water right subject to an approved change application where the applicant is
153 diligently pursuing certification.

154 (f) (i) The reasonable future water requirement of the public is the amount of water
155 needed in the next 40 years by the persons within the public water supplier's [projected]
156 reasonably anticipated service area based on [projected] reasonably anticipated population
157 growth or other water use demand.

158 (ii) For purposes of Subsection (2)(f)(i), a community water system's [projected]
159 reasonably anticipated service area:

160 (A) is the area served by the community water system's distribution facilities; and

161 (B) expands as the community water system expands the distribution facilities in
162 accordance with Title 19, Chapter 4, Safe Drinking Water Act.

163 (g) For a water right acquired by a public water supplier on or after May 5, 2008,
164 Subsection (2)(e)(vii) applies if:

165 (i) the public water supplier submits a change application under Section 73-3-3; and

166 (ii) the state engineer approves the change application.

167 (3) (a) The state engineer shall furnish a nonuse application form requiring the
168 following information:

171 diversion, place of use, and priority;

172 (iii) the quantity of water;

173 (iv) the period of use;

174 (v) the extension of time applied for;

175 (vi) a statement of the reason for the nonuse of the water; and

176 (vii) any other information that the state engineer requires.

177 (b) (i) Upon receipt of the application, the state engineer shall publish a notice of the
178 application once a week for two successive weeks:

179 (A) in a newspaper of general circulation in the county in which the source of the water
180 supply is located and where the water is to be used; and

181 (B) as required in Section 45-1-101.

182 (ii) The notice shall:

183 (A) state that an application has been made; and
184 (B) specify where the interested party may obtain additional information relating to the
185 application.

186 (c) Any interested person may file a written protest with the state engineer against the
187 granting of the application:

188 (i) within 20 days after the notice is published, if the adjudicative proceeding is
189 informal; and

190 (ii) within 30 days after the notice is published, if the adjudicative proceeding is
191 formal.

192 (d) In any proceedings to determine whether the nonuse application should be
193 approved or rejected, the state engineer shall follow the procedures and requirements of Title
194 63G, Chapter 4, Administrative Procedures Act.

195 (e) After further investigation, the state engineer may approve or reject the application.

196 (4) (a) The state engineer shall grant a nonuse application on all or a portion of a water
197 right for a period of time not exceeding seven years if the applicant shows a reasonable cause
198 for nonuse.

199 (b) A reasonable cause for nonuse includes:

200 (i) a demonstrable financial hardship or economic depression;

201 (ii) physical causes or changes that render use beyond the reasonable control of the
202 water right owner;

203 [~~(ii)~~] (iii) the initiation of water conservation or efficiency practices, or the operation of
204 a groundwater recharge recovery program approved by the state engineer;

205 [~~(iii)~~] (iv) operation of legal proceedings;

206 [~~(iv)~~] (v) the holding of a water right or stock in a mutual water company without use
207 by any water supply entity to meet the reasonable future requirements of the public;

208 [~~(v)~~] (vi) situations where, in the opinion of the state engineer, the nonuse would assist
209 in implementing an existing, approved water management plan; or

210 [~~(vi)~~] (vii) the loss of capacity caused by deterioration of the water supply or delivery
211 equipment if the applicant submits, with the application, a specific plan to resume full use of
212 the water right by replacing, restoring, or improving the equipment.

213 (5) (a) Sixty days before the expiration of a nonuse application, the state engineer shall

214 notify the applicant by mail or by any form of electronic communication through which receipt
215 is verifiable, of the date when the nonuse application will expire.

216 (b) An applicant may file a subsequent nonuse application in accordance with this
217 section.

419 (4) (a) Within 60 days after the day on which the shareholder receives the water
420 company's response, or, if the water company fails to respond within 60 days after the last day
421 on which the water company may respond under Subsection (3)(a), the shareholder may
422 commence an administrative proceeding by filing the change application with the state
423 engineer in accordance with Section [73-3-3](#) and this section.

424 (b) The shareholder shall include as part of the change application filed with the state
425 engineer under Subsection (4)(a):

426 (i) the water company's response to the shareholder's proposed change application; or

427 (ii) an affidavit signed by the shareholder documenting the water company's failure to
428 respond in the time period described in Subsection (3)(a).

429 (5) If a shareholder files a change application and the water company has consented to
430 the proposed change under Subsection (3)(b)(i), or the water company has consented to the

431 proposed change subject to certain conditions under Subsection (3)(b)(ii) and the shareholder
432 agrees to the conditions, the state engineer shall proceed to evaluate the change application in
433 accordance with Subsection (13).

434 (6) If a shareholder files a change application and the water company has consented to
435 the proposed change subject to certain conditions under Subsection (3)(b)(ii) but the
436 shareholder disagrees with one or more conditions described in the response, or if the water
437 company declines to consent under Subsection (3)(b)(iii), or if the water company elects to
438 respond in a confidential communication as described in Subsection (3)(b)(iv), or if the water
439 company fails to respond and the shareholder submits an affidavit of nonresponse under
440 Subsection (4)(b)(ii), the state engineer shall:

441 (a) within 10 days after the day on which the state engineer receives the change
442 application, give notice to the shareholder and the water company that both parties are required
443 to engage in mediation before the state engineer will evaluate the change application; and

444 (b) provide written notice to the water company, if it failed to respond as required
445 under Subsection (3)(b), that the water company shall respond to the proposed change
446 application within 30 days after the day on which the water company receives the notice from
447 the state engineer and that the response shall conform with one of the options described in
448 Subsection (3)(b).

449 (7) If the water company has not previously responded under Subsection (3)(b) and
450 fails to respond to the notice under Subsection (6)(b), the state engineer may proceed with the
451 administrative evaluation under Subsection (13).

452 (8) (a) If the water company has, in writing, declined to consent to the change
453 application under Subsection (3)(b)(iii) or Subsection (6)(b), has consented on conditions
454 unacceptable to the shareholder, or has elected to respond in a confidential communication as
455 described in Subsection (3)(b)(iv), the parties shall jointly retain the service of a mediator and
456 schedule a mediation on the change application filed by the shareholder and the response of the
457 water company.

458 (b) If the shareholder and water company are unable to agree upon a mediator, the
459 Office of the Property Rights Ombudsman shall serve in the capacity of mediator.

460 (c) The shareholder and water company shall equally share the costs related to the use
461 of the mediator for a mediation conducted under Subsection (8)(a).

462 (d) The mediation described in Subsection (8)(a) shall be held within 60 days of the
463 day on which the state engineer gives the notice set forth in Subsection (6)(a) if the water
464 company issued a written response pursuant to Subsection (3)(a), or within 60 days of the day
465 on which the water company issues a written response pursuant to Subsection (6)(b).

466 (e) If the water company elected to respond in a confidential communication as
467 described in Subsection (3)(b)(iv), the water company shall provide the shareholder and the
468 mediator a confidential statement of the reasons supporting any conditions on which its consent
469 is based, or on which its decision to decline to consent is based, no less than 21 days before the
470 day on which mediation is scheduled to occur.

471 (f) The shareholder and the mediator shall keep confidential any information in the
472 statement described in Subsection (8)(e) identified as confidential.

473 (g) The time for completion of the mediation may be extended for up to 90 days if the
474 parties agree and send written notice to the state engineer.

475 (h) If the water company gave written notice under Subsection (3)(b)(iv) of its election
476 to respond to the shareholder's change application in a confidential communication before
477 mediation, but then failed to respond as required in Subsection (8)(e) within the time specified
478 or the time allowed under any agreed extension, the water company shall be considered to have
479 consented to the change application.

480 (i) Within five days after the day on which the final day of mediation occurs, the
481 mediator shall send a written statement to the state engineer, with a copy provided to each
482 party, advising whether the mediation resulted in an agreement between the parties.

483 (9) If a shareholder and a water company come to an agreement in a mediation
484 conducted under Subsection (8), the state engineer shall proceed to evaluate the change
485 application in accordance with Subsection (13).

486 (10) If the parties do not reach an agreement through mediation and a mediator's
487 statement, as described in Subsection (8)(i), is not received within 10 days following the time
488 allowed for mediation, either party may send written notice to the other and to the state
489 engineer that the parties are not in agreement regarding the proposed change application.

490 (11) Within 60 days of the day on which the state engineer receives the written
491 statement from the mediator under Subsection (8)(i), or the written notice from a party under
492 Subsection (10), that the parties are not in agreement regarding the proposed change

493 application, the shareholder or the water company may file an action in district court to resolve
494 legal issues not within the purview of the state engineer's evaluation under Subsection (13).

495 (12) If a court action is not timely filed under Subsection (11), or if an action is timely
496 filed and subsequently resolved and the matter remanded to the state engineer, the state
497 engineer shall move forward with the administrative proceeding under Subsection (13).

498 (13) (a) The state engineer shall evaluate a shareholder's change application in the same
499 manner used to evaluate a change application submitted under Section 73-3-3, using:

500 (i) the criteria described in Section 73-3-8;

501 (ii) the considerations described in Subsection (3)(c), related specifically to shareholder
502 applications; and

503 (iii) the water company's conditions in consenting to the shareholder's proposed change
504 application.

505 (b) Nothing in this section limits the authority of the state engineer in evaluating and
506 processing a change application, including the authority to require or allow a shareholder or
507 water company to submit additional relevant information, if the state engineer finds an absence
508 of prejudice and allows adequate time and opportunity for the other party to respond.

509 (c) The state engineer may not withhold approval of a change application under this
510 section based on potential damage, liability, or impairment to the water company or its
511 shareholders if the potential damage, liability, or impairment can be reasonably mitigated
512 without cost to the water company.

513 (14) If the state engineer approves a shareholder's change application, the state
514 engineer may:

515 (a) condition approval on payment of the water company's reasonable costs incurred in
516 the transfer process and in making adjustments to the water company's diversion or delivery
517 system that are necessitated by the approved change application; and

518 (b) for shares included in the approval, require that the shareholder requesting the
519 change [must] be current on all water company assessments and [agree to];

520 (i) continue to pay all reasonably applicable future assessments[~~], except that the~~
521 shareholder may choose to prepay any portion of the water company assessments attributable to
522 an existing debt of the water company.], with credit given to the shareholder for cost savings to
523 the company; or

524 ~~[(b) Other than prepaid assessments, the water company may require that the~~
525 ~~shareholder continue to pay all applicable assessments.]~~

526 ~~[(6) If the water company approves the requested change, with or without conditions,~~
527 ~~the change application may be filed with the state engineer, and must:]~~

528 ~~[(a) be signed on behalf of the water company; or]~~

529 ~~[(b) be accompanied by written authorization from the water company assenting to the~~
530 ~~change.]~~

531 ~~[(7) (a) The state engineer may evaluate a change application authorized by a water~~
532 ~~company under this section in the same manner and using the same criteria that he or she uses~~
533 ~~to evaluate any other change application.]~~

534 ~~[(b) Nothing in this section shall limit the authority of the state engineer in evaluating~~
535 ~~and processing any change application.]~~

536 ~~[(8) If an application authorized by a water company under this section is approved by~~
537 ~~the state engineer, the shareholder may file requests for extensions of time to submit proof of~~
538 ~~beneficial use under the change application without further permission of the water company.]~~

539 ~~[(9) (a) Change applications approved under this section are subject to all conditions~~
540 ~~imposed by the water company and the state engineer.]~~

541 ~~[(b) If a shareholder fails to comply with all of the conditions imposed by the water~~
542 ~~company, the water company may, after written notice to the shareholder and after allowing~~
543 ~~reasonable time to remedy the failure, withdraw its approval of the application, and petition the~~
544 ~~state engineer for an order canceling the change application.]~~

545 ~~[(c) The water company may not revoke its approval of the change application or seek~~
546 ~~an order canceling the application if the conditions are substantially satisfied.]~~

547 ~~[(10) (a) The shareholder requesting the change shall have a cause of action, including~~
548 ~~an award of actual damages incurred, against the water company if the water company:]~~

549 ~~[(i) unreasonably withholds approval of a requested change;]~~

550 ~~[(ii) imposes unreasonable conditions in its approval; or]~~

551 ~~[(iii) withdraws approval of a change application in a manner other than as provided in~~
552 ~~Subsection (9).]~~

553 ~~[(b) The action referred to in Subsection (10)(a) shall be referred to mediation by the~~
554 ~~court under Title 78B, Chapter 6, Part 2, Alternative Dispute Resolution Act, unless both~~

555 ~~parties decline mediation.]~~

556 ~~[(c) If mediation is declined, the prevailing party to the action shall be entitled to costs~~
557 ~~and reasonable attorney fees.]~~

558 (ii) by mutual agreement only, and when the shares will rely upon a different diversion
559 and delivery system, negotiate a buyout that includes a pro rata share of the bonded
560 indebtedness assignable to the shares, together with the capitalized value of anticipated future
561 assessments for maintenance and operation that otherwise would have applied.

562 (15) A shareholder or a water company may obtain de novo judicial review of the state
563 engineer's determination under Subsections (13) and (14) by filing an action in district court
564 within 30 days after the day on which the state engineer makes a final determination in the
565 adjudicative proceeding on the change application.

566 (16) If, after a proposed change has been approved and gone into effect, a shareholder
567 fails to substantially comply with a condition described in Subsection (14)(a) or (b) and
568 neglects to remedy the failure after written notice from the water company that allows the
569 shareholder a reasonable opportunity to remedy the failure, that is not less than 90 days after
570 the day on which the water company gives notice, the water company may:

571 (a) petition the state engineer to order a reversal of the change application approval; or
572 (b) proceed under the remedies provided in Title 16, Chapter 4, Share Assessment Act.

573 (17) If a shareholder's change application is denied by the state engineer and the denial
574 is upheld by the district court in a de novo action, the district court may award costs and
575 reasonable attorney fees to the water company if the court finds that:

576 (a) the shareholder refused to accept conditions advanced by the water company for the
577 water company to consent to the proposed change; and

578 (b) the conditions advanced by the water company for consenting to the shareholder's
579 change were reasonable and necessary to protect the other shareholders.

580 (18) If a shareholder's change application is approved by the state engineer and upheld
581 by a district court in a de novo action, the district court may award costs and reasonable
582 attorney fees to the shareholder if the district court finds that the water company:

583 (a) unreasonably declined to consent to the proposed change; or

584 (b) conditioned its consent to the proposed change on unreasonable requirements.
