CERTIFICATIONS FOR STATE CONTRACTS

4

5

9-5-401. Legislative findings.

6

7

(a) The legislature finds that:

8

9 (i) Numerous essential American industries,
10 including fossil fuel production, agriculture, timber
11 production and firearms, are being targeted for boycotting,
12 divesting and sanctioning by large corporations and public
13 and private institutional investors;

14

15 (ii) The goal of these colluding parties is to
16 starve targeted legal industries of capital, restrict their
17 productivity and redirect that capital to favored
18 industries;

19

20 (iii) These parties are working in concert with
21 many state and federal lawmakers and regulators, as
22 evidenced by new climate disclosure rules from the United
23 States securities and exchange commission;

1

2 (iv) Restricting the supply of energy and other
3 essential commodities, without effective substitutes for
4 those commodities, only serves to raise prices on
5 consumers, profoundly impacting the poorest among us;

6

7 (v) Denying financing to American companies, who
8 are among the most socially and environmentally responsible
9 companies in the world, only serves to support hostile
10 nations and less responsible producers;

11

12 (vi) Banks and insurance companies are
13 increasingly denying financing to creditworthy companies to
14 market their environmental credentials to the detriment of
15 consumers, shareholders and society;

16

17 (vii) Institutional investors are divesting from
18 entire industries and pressuring corporations to commit to
19 environmental goals, including reducing greenhouse gas
20 emissions to zero (0) by 2050, to burnish their
21 environmental credentials or to promote their own
22 environmental, social and governance funds at the expense
23 of investor returns;

1

2 (viii) Large investment firms, through their
3 proxy votes on shareholder resolutions and board elections,
4 are colluding to force companies to direct money, time and
5 attention away from their core responsibility of increasing
6 shareholder returns and driving capital allocations and
7 political change outside the democratic process;

8

9 (ix) Corporations are boycotting and sanctioning
10 essential legal industries, including fossil fuel and
11 agriculture producers, by denying them capital, refusing to
12 provide them with products or services and imposing undue
13 burdens on them;

14

15 (x) The collusion of corporations and
16 institutions to boycott, divest from or sanction any
17 industry may violate existing antitrust and fiduciary duty
18 laws and harms consumers, shareholders and the state of
19 Wyoming;

20

21 (xi) States, when financially prudent, should
22 avoid doing business with companies that engage in

1 potentially illegal conduct described in this section and
2 threaten harm to the state, its business and its citizens.

3
